ПРЕДИСЛОВИЕ

Данное электронное учебное пособие предназначено для самостоятельного изучения студентами грамматических тем.

Английский глагол является центральной частью предложения в языке и представляет собой один из самых сложных разделов грамматики. Структура изложения материала в пособии разработана таким образом, что в случае отсутствия возможности посещения занятия, студент может изучить тему самостоятельно, составить конспект и выполнить практические задания. Грамматический материал представлен в сжатой, лаконичной, систематизированной форме и является по сути уже готовым конспектом для обучающегося. К краткому изложению прилагается ссылка на интернет сайт с более подробной информацией по теме и примерами на английском языке и видео-урок (серию уроков). После теоретического материала к теме прилагаются практические упражнения. Кроме того, в конце пособия размещен справочник, в котором изучаемые темы представлены в табличном формате.

Учебное пособие предназначено для студентов 1 курсов всех неязыковых направлений подготовки.

1. Порядок слов английского предложения.

Схематично предложение в английском языке можно представить формулой:

SV(O),

где **S** – это подлежащее, **V** – глагол сказуемое, **O** – второстепенные члены предложения. Порядок слов в английском языке **СТРОГО ФИКСИРОВАННЫЙ!** Утвердительное предложение **ВСЕГДА** начинается с подлежащего, за ним следует глагол-сказуемое. Наличие **ОСНОВЫ – ОБЯЗАТЕЛЬНО!** Предложение не может существовать без подлежащего или без сказуемого.

Подлежащее может быть выражено а) существительным, б) местоимением, в) числительным, г) прилагательным (чаще субстантивированным), д) герундием е) инфинитивом. Примеры предложений можно посмотреть тут → <https://englishfull.ru/grammatika/poznakomtes-s-podlezhashhim.html>

<https://engblog.ru/the-subject>

Сказуемое в английском предложении всегда следует непосредственно за подлежащим и употребляется в **ЛИЧНОЙ** форме глагола, т.е. согласовывается с ним. При этом сказуемое не всегда выражает действие, но и состояние. В последнем случае в русском языке глагол-сказуемое отсутствует в предложении, а в английском языке необходимо использовать соответствующую форму глагола-связки **TO BE**. Таким образом, сказуемое может быть глагольным и составным именным. Примеры тут →

<https://www.englishpatient.org/articles/skazuemoe-v-anglijskom-yazyke>

Вслед за глаголом в английском предложении стоит дополнение (прямое и косвенное) и замыкают выражаемую мысль различные виды обстоятельств. Наличие второстепенных членов в предложении опционально. В случае их отсутствия предложение является нераспространенным. 7. The Present Perfect Tense

HAVE \ HAS + V3

Форма настоящего совершенного времени употребляется для описания действия, которое уже произошло (как правило, только что). По факту, это прошедшее действие. Однако выражается формой настоящего времени, т.к. для нас важен не столько факт его совершения, сколько результат, который очевиден, актуален и важен в настоящий момент (already, yet, ever\never, just).

I have had lunch already. (I'm not hungry). # I haven't seen the news yet today.

Кроме того, данная форма употребляется для описания изменений, которые произошли и очевидны, а также для сообщения новой информации.

HAVE\HAS + BEEN + V-ing

Выражает действие, которое началось в прошлом, длилось некоторый период времени и длится о сих пор. Период времени обычно указывается предлогами SINCE и FOR, либо союзом SINCE + Past Simple.

В отличие от формы Present Perfect, в данном случае нас больше интересует не результат, а процесс. Но в отличии от Present Continuous - это процесс не в данный момент времени, а более длительный, охватывающий определённый период.

I have been learning English for two years / since 2019.

I have been waiting for you since morning.

She has been crying since she heard the bad news.

Present Perfect Continuous употребляется в вопросах, начинающихся с

How long has she been doing gymnastics?

9. The Present Perfect vs. Present Perfect Continuous Tense

Принципиальное различие в употреблении форм Present Perfect и Present Perfect Continuous в том, что в первом случае мы фокусируемся на результате действия, а во втором – на процессе и длительности его выполнения. Форму Present Perfect мы употребляем как правило если действие уже закончилось, а Present Perfect Continuous Tense указывает на то, что действие всё еще находится в развитии. Сравните:

I have been doing home exercises since morning.

I have done four exercises.

Кроме того, Present Perfect будет употребляться вместо Present Perfect Continuous с глаголами состояния (stative verbs) – (см. п.п. 5, тема 4 - <https://www.englishdom.com/blog/glagoly-sostoyaniya-v-anglijskom-yazyke/>)

I have known him since childhood.

В английском языке, помимо собственно будущих времен, существует несколько иных способов выражения будущих действий, в зависимости от их специфики и особенностей коммуникативной ситуации.

1. Будущее действие можно выразить формой Present Simple, если оно будет происходить по расписанию, графику, программе.

The film starts in 2 hours. # *The train leaves at 10 p.m.*

2. Если действие запланировано и оно обязательно произойдет, то его необходимо выражать формой Present Continuous (+ to be going to).

I am going to the cinema tonight. # *We are meeting our uncle tomorrow.*

3. Если мы говорим о будущих действиях на уровне предположений, идеи, которые зачастую только что, спонтанно пришли к нам в голову, то тогда необходимо употреблять Future Simple (WILL + V1).

Our granny is coming tomorrow. I will make a pie.

He will come to see us, I hope.

Английские глаголы можно классифицировать по разным признакам: они бывают правильными (*work – worked – worked*) и неправильными (*speak – – spoken*), смысловыми (*to read*) и вспомогательными (**am reading**), а также переходными и непереходными.

Переходные глаголы (*Transitive verbs*) – это глаголы, после которых обязательно должно стоять дополнение (*object*), чтобы получилось полноценное, наполненное смыслом предложение.

S

animals – дополнение)

Непереходные глаголы (*Intransitive verbs*) – это глаголы, которые не требуют после себя дополнения для получения полноценного предложения.

The dog barked. – Собака лаяла. (*barked* – непереходный глагол)

17. The Passive voice

В английском языке существует два залога – активный (active voice) и пассивный (страдательный) (passive voice). В активном залоге действие выполняет подлежащее. В пассивном – действие происходит над подлежащим.

Mary cleans the office every morning. # *The office is cleaned every morning.*

Таким образом, пассивные конструкции нам нужны, когда:

- ✓ Мы не знаем, кто совершил действие (субъект неизвестен).
- ✓ Неважно, кто совершил действие.
- ✓ Субъект действия очевиден для всех.

Классические примеры очевидных субъектов — это полиция, врачи, пожарные, почта... В общем, те, кто делают уникальную работу, которую кроме них никто сделать не может.

- *The killer was caught and given a life sentence.*
Убийца был пойман и осужден на пожизненное заключение. (Понятно, что агентом действия могли выступать только полиция и суд).
- *He was taken to the hospital where he underwent surgery and his life was saved.* *Он был доставлен в больницу, где ему провели операцию, и его жизнь была спасена.* (Из контекста ясно, что жизнь больному спасли врачи, дополнение *by doctors* не нужно, оно подразумевается).

Активный залог в английском строится по формуле

Субъект + глагол + объект. (SVO).

Субъект	Глагол	Объект
<i>The rabbit</i>	<i>ate</i>	<i>the carrot.</i>
<i>Кролик</i>	<i>съел</i>	<i>морковку.</i>

В пассивной конструкции на месте субъекта оказывается объект — тот (то), кто (что) подвергается воздействию. Формула меняется следующим образом:

Субъект (бывший объект) + *to be* + причастие прошедшего времени + действующее лицо (опционально).

Важный момент: именно *переходные* глаголы могут использоваться в пассивном залоге.

Таблица образования пассивных конструкций по временам → в СПРАВОЧНИКЕ (с. 86).

(1) Paper is a common material. People use it everywhere in the world. Throughout history, people have made it from various plants, such as rice and papyrus, but today wood is the chief source of paper. In the past, people made paper by hand, but now machines do most of the work. Today people make paper from wood pulp by using either a mechanical or a chemical process.

(2) In the mechanical process, someone grinds the wood into small chips. During the grinding, someone sprays it with water to keep it from burning from the friction of the grinder. Then someone soaks the chips in water.

(3) In the chemical process, first someone washes the wood, and then someone cuts it into small pieces in a chipping machine. Then someone cooks the chips in certain chemicals. After someone cooks the wood, someone washes it to get rid of the chemicals.

(4) The next steps in making paper are the same for both the mechanical and the chemical processes. Someone drains the pulp to form a thick mass, bleaches it with chlorine, and then thoroughly washes it again. Next someone puts the pulp through a large machine that squeezes the water out and forms the pulp into long sheets. After the pulp sheets go through a drier and a press, someone winds them onto rolls. These rolls of paper are then ready for use.

(5) The next time you use paper, you should think about its origin and how people make it. And you should ask yourself this question: What would the world be like without paper? If you can imagine how different today's world would be without paper, you will immediately understand how essential paper has been in the development of civilization.

18. “HAVE SOMETHING DONE”

Мы часто сталкиваемся с ситуациями, когда объектом действия становимся либо мы сами, либо наши вещи. Например, нам делают прическу, красят ногти или что-то чинят. В английском языке это можно выразить при помощи конструкции- выражения – *have something done*.

Эта конструкция используется:

- 1) Когда речь идет об услуге, которую вам оказали по просьбе или за деньги.

I had my surgery done in a very good clinic. – Я сделала операцию в очень хорошей клинике.

She had her window repaired after the storm. – Она починила окно после грозы.

- 2) С вами случилось что-то плохое.

She had her store robbed last night. – Ее магазин обокрали прошлым вечером.

We had all our money stolen. – У нас украли все деньги.

В разговорном английском вместо have возможно употребление глагола get.

When will you get your hair done? – Когда тебе сделают прическу?
